Version 0.60

Table of Contents

The Debian packages are created by Chanop Silpa-Anan <chanop@debian.org > and are normally available a few days after a new release of Muttprint. The could be installed by

dpkg -i muttprint_[version]-[release]_noarch.deb

Take a look at the Debian "Developer's Corner" (http://www.debian.org/devel/) for more information about Debian packages.

Another possibility to install Debian packages is **apt-get**.

2.3. Integration of Muttprint in mail clients

Muttprint was orgie90(.12_tion)-28i118(gie))(w)16(at)(gieusat)(gieto0 T3 Td[(w)1witht)(gie0.12t)(gieonr)165.87gieHo(a)-20(.12_

apt-get

Style	Description
border	rule after the headers (*default setting*)
fbox	simple box around the mailheaders
shadowbox	shadowbox arount the header
ovalbox	box with rounded corners arount the header (thin lines)
Ovalbox	same as ovalbox but thicker lines
doublebox	box with double lines around the header
grey	grey background behind the headers
greybox	same as grey but with a additional black box

to

3.1.9. Paper format

To set the paper format, set PAPER to the right value. Possible are only A4 and letter

3.1.10. Cut signature

Often the signature contains unseless information or advertising and should therefore not be printed. Muttprint is
ovalbox

3.2. Command line options

4. Notes

4.1. Author, License
